Oregon Expanded Functions – General Dental Assisting Pathways II, IIIA and IIIB

Eligibility Pathways for Expanded Functions Dental Assistant (EFDA) in Oregon

Performance of EFDA functions in Oregon is regulated by the Oregon Board of Dentistry (OBD). The Dental Assisting National Board, Inc. (DANB) administers the Oregon EFDA certificate program on behalf of the Oregon Board of Dentistry, a service that includes providing information regarding exams and certifications, distributing application materials, administering the required exams and issuing certificates.

An Oregon EFDA certificate allows a dental assistant to perform the following duties: polish the coronal surfaces of teeth with a brush or rubber cup as part of oral prophylaxis to remove stains providing the patient is checked by a dentist or dental hygienist after the procedure is performed, prior to discharge; remove temporary crowns for final cementation and clean teeth for final cementation; preliminarily fit crowns to check contacts or to adjust occlusion outside the mouth; place temporary restorative material (i.e., zinc oxide eugenol-based material) in teeth providing that the patient is checked by a dentist before and after the procedure is performed; place and remove matrix retainers for alloy and composite restorations; polish amalgam restorations with a slow-speed handpiece; remove excess supragingival cement from crowns, bridges, bands or brackets with hand instruments providing that the patient is checked by a dentist after the procedure is performed; perform all aspects of teeth whitening procedures; fabricate temporary crowns and temporarily cement the temporary crown provided that the cemented crown is examined and approved by the dentist prior to the patient being released. An EFDA may also perform additional expanded functions that are not listed here under general supervision or after completing additional education/training in those functions. For details, see the "Allowable and Prohibited Duties" chart linked from the Oregon page in the Meet State Requirements area of DANB's website (www.danb.org).
